

Week 10 Spot Exercise (13/4/2023)

Create a window application for student data management. In which create a user interface to enter the details of a student. It should have the following fields:

Name- text box

Dept – radio button

Gender- radio button

Area of interest- check box

Hobbies- combobox

Submit button

Confirm button

Exit button

In addition to the above components include appropriate logo at the top left corner of the frame. Arrange the above GUI components using flow layout.
