RUSA-CS6103-ADP

Week 3 (18-05-2023)

SPOT

1. Within the layout for Q6, Use CSS *position*, *float*, *display* to align/position acombination of content and images.

2. Design a homepage as per the following layout using only **<DIV>** elements. Apply 3 different external style sheets {background-color} for HEADER, CS1, and FOOTER.

- The **Header** has got a title text, centered
- **Content Section 1 (CS1)** has got 4 text links as a list.
- **Content Section 2 (CS2)** displays the image corresponding to the clicked text link in CS1
- **Footer has got empty text links in a row.**

There is an image associated with each of the text links in CS1. When the text link in CS1 isclicked the corresponding image should be displayed in CS2.
