Laboratory Exercises
(03-05-2023)

<u>Exercises on CSS:</u>

1. Creating Inline, Internal and External style sheets and demonstrate their cascading order

2. Applying **Class** and **Id** selectors to HTML registration form using an external style sheet.

3. Use two colors to alternate between rows of a table (use two mild colors to alternate between the rows of a table)

4. Use the html element **li**, anchor tag **a** to create different colored text links on a page.
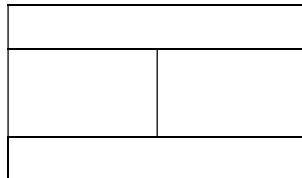

Ex: style **a** {color: red;}

- Orange
- Green
- Red
- Blue

5. Use CSS **position, Float, display** properties for various elements on the page.

6. position the images supplied as simple clickable icons with captions for each of them in a row for navigation using css stylesheet

li{ display: inline;}

A   B   C   D   E

7. Design Layout for a webpage using the **Box Model**

div{ width: 300px;border: 25px solid green;padding: 25px;margin: 25px;}
