

Foreign Trading System

Design a system which involves details about the export and import of materials between two or many countries. Project is to ensure globalization and thereby ensuring that the buyers all over the world get the desired product that helps in the development of their globalizations. The promoter has to maintain the details of the products that are been exported to other countries. The bank's certification should be issued for the export products. The buyer has to maintain the details of the products brought from the foreign countries. The bank's certification should be issued to import the products from foreign countries. The project must include shipping details.

a. Develop an IEEE Standard SRS Document with

- 1.** Problem Statement
- 2.** Purpose
- 3.** Scope
- 4.** Audience
- 5.** Requirements
- 6.** Design and Implementation Constraints .

b. Draw Sequence diagram for possible sequences.
