

# CS6109 - COMPILER DESIGN – LAB

Week 11 – 15.11.2022

## (Spot Questions)

1. Write a yacc program to validate the infix expression.
2. Write a yacc program to validate the given for construct.

**Input:**

```
int main()
{
for (int i=0; i<2; i++)
{
Print("%d \n", i);
}
return 0;
}
```
